Experience

2019 - Current (remote)

Florida Disability and Accessibility Foundation, Gainesville FL, (remote)

Game Producer

- Facilitate communication between art, software, UX, design, and marketing teams for our disabilities education mobile game.
- Oversee iterative **Agile** development and task prioritization for a software team of six developers through **Trello**.
- Strategize weekly with four team leads to circumvent unexpected conflicts with game production and interpersonal miscommunications.

2021 - Current

STEM Sims, Gainesville FL, (remote)

Product Manager

- Collaborate with designer to enhance student user experience by revamping the entire interface of our literacy program (managed product).
- Utilize **Jira** and **Confluence** to organize and document **Agile-based** software development to efficiently communicate goals with sales and management.
- Develop lab simulations to gamify learning sciences in **Node Js** & **React Native**.

2019 - 2021

Rapid Genomics, Gainesville FL

Full Stack Developer

- Organize software design and development with **Monday.com** for our lab management software
- Generate over 1.5 million in profit from developing new features and improving costly processes.

2018 - 2019

University of Florida Housing, Gainesville FL

Graduate Hall Director

- Supervise nine Resident Advisers daily to maintain accountability and safety within a residence hall of over 600 students

2018 Summer

Motorola Solutions, Davie FL

Software Engineer Intern

- Create innovative chat bots to streamline IT processes, saving over two hundred hours for the department annually.

2017-2018

University of Florida Dean of Students Office, Gainesville FL

Director of Communications

- Lead a team of nine personal relations specialists to market a variety of events to help incoming students with attendance reaching up to 900 attendees.

Personal Projects

2019 - Current

Projects For Haiti (P4h Global)

Developed Teacher Certification App

- Prototyped, designed, and deployed a **Python Flask** web app that assists Haitian teachers and administrators with organizing their learning curriculum
